

REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES

The Department of Environment & Natural Resources (DENR)
under the administration of

**HIS EXCELLENCY
PRESIDENT RODRIGO ROA DUTERTE**

Pillars of Governance

- Establish a strong civil society organization (CSO) arm within the DENR that institutionalizes civil society participation at all levels of environment and natural resources management (*Policy formulation, planning, implementation, monitoring and impact audit*)

Pillars of Governance

- Shift DENR from a regulatory to a development arm
We want to create a situation where taking care of the environment makes people happy and more economically prosperous through sustainable enterprises.

Pillars of Governance

- We will do this by transforming each National Greening Program area into a ring of economic growth where children and communities can learn about environmental protection and sustainable use of resources.

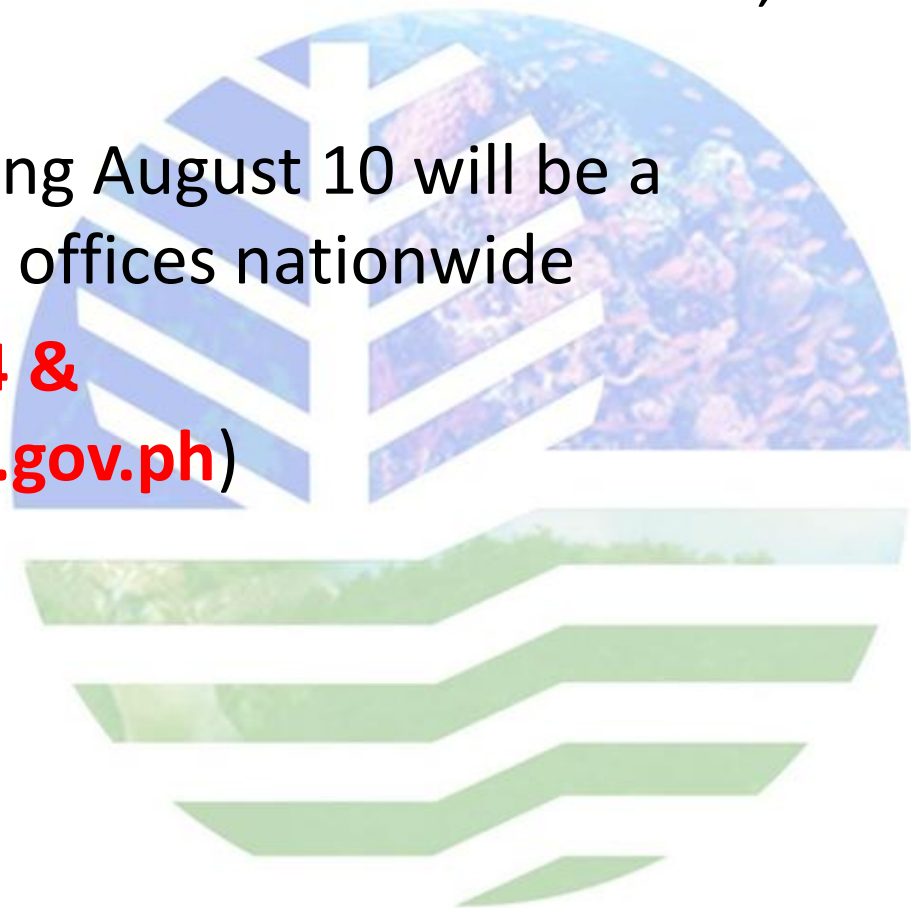

Pillars of Governance

- Shift DENR from having a contrarian dynamics with civil society into a situation where we are of service, thus:
 - ✓ Every **Wednesday** starting August 10 will be a Peoples Day in all DENR offices nationwide
 - ✓ Hotlines (**0917 5229344 & aksyonkalikasan@denr.gov.ph**)

www.emergencecenter.org

Pillars of Governance

- Establish a SWAT team that will work closely with the AFP and PNP and will act as an audit team to address and eventually lessen complaints

Pillars of Governance

- Use the area management approach to converge DENR resources with a view point of building models that deliver the message that taking care of the environment results into a better quality of life

Pillars of Governance

- Actively engage the youth through programs that will incarnate their civic consciousness and love for the environment

Pillars of Governance

- Create island models (Mindoro Oriental, Sibuyan, Palawan, Sorsogon, Guimaras, Batangas) that encourage the convergence approach between and among national government agencies, academe and civil society to lift people out of poverty through programs on agriculture, environmental protection tourism, enterprise and skills building

Pillars of Governance

**Repeated experience and working together
makes the difference**

THANK YOU
